PROFILE

Fullstack developer with over 4 years of experience, specializing in frontend architecture and user-centric design. I build fast, scalable web applications using React, Next.js, and Node.js, with a strong emphasis on performance, accessibility, and clean code. I bridge intuitive interfaces with reliable backend systems, leveraging modern tools and AI-assisted workflows to deliver efficient, production-ready solutions.

SUMMARY

- Led a frontend architecture refactor, improving code maintainability and reducing feature delivery time.
- Built and optimized SEO-friendly web applications with React and Next.js, increasing organic traffic and performance scores.
- Developed scalable, responsive user interfaces with a strong focus on accessibility, usability, and modern design practices.
- Integrated RESTful APIs with secure authentication and efficient state management using modern tools like TanStack Query and Zustand.
- Reduced bugs and improved application stability through testing, code reviews, and performance optimization techniques.

EXPERIENCE

Freelance & Contract Software Developer

11/2025 to Present

Freelance

- Delivered 10+ production websites for founders, creators, and small businesses with an average 40% performance improvement per project
- Integrated third-party services and RESTful APIs, implementing secure authentication, data handling, and optimized server-client communication.
- Collaborated directly with clients to gather requirements, deliver tailored features, and ensure performance, responsiveness, and overall user satisfaction.

Frontend Engineer

1/2024 to 10/2025

Vehenceit

- Led a full refactor of the front-end architecture, improving code maintainability by 25% and reducing feature development time by 15%
- Developed and launched SEO-optimized pages using React/Next.js, resulting in a 20% increase in organic traffic
- Reduced user-reported bugs by 30% through robust testing and boosted Lighthouse performance scores by 40%.

Junior Frontend Developer

8/2022 to 12/2023

Unicon Group

- Designed and built scalable front-end solutions for high-traffic applications using React, Next.js, and Redux Toolkit
- Enhanced application security and user experience by implementing global state management with Zustand, persistent login sessions, and multi-role dashboards

- Proactively debugged and conducted rigorous code reviews, reducing user-reported issues by 15%

Frontend Developer (Intern)

9/2021 to 7/2022

HiiT Plc

- Contributed to the development of interactive web applications using React, Next.js, and TypeScript
- Enhanced UI/UX by implementing smooth animations with Framer Motion and GSAP and adhering to accessibility best practices
- Gained experience in a microservice-based frontend architecture using Next.js within an Nx monorepo

CERTIFICATIONS

Data Structures and Algorithm Engineering

Devsnest

Issued: 2022-09

Advanced Frontend & Backend Engineering Course

Devsnest

Issued: 2022-12

SKILLS

JavaScript, TypeScript, HTML5, CSS, SEO, React, Next.js, Node, Express, MongoDB, Prisma, Redux Toolkit, Zustand, React Hook Form, Tailwind, Framer Motion, GSAP, Vitest, React Testing Library, GitHub, Agile/Scrum, Kafka, Redis, Swagger, Docker, Shadcn, Recharts, Tanstack/React-Table, Leaflet, TanStack Query, Zod, React Router, Postgresql, Mapbox, Stripe, SCSS, Styled-Component

EDUCATION

Bachelor of Science (BSc)

Obafemi Awolowo University

2008 to 2013 | CGPA: 3.75
